Principal Report

Principal comments:

The Leadership Team comprises of a Principal Kirsty Maclean who is tenured for 2024-2028, a Deputy Principal Lisa De Candia who is tenured for 2024-2026 and a Wellbeing Leader Anne Kamenic who ended her tenure at the end of Term 2. Kate Didyk won the Acting Wellbeing Leader position for Semester 2. The Pastoral Care worker is Tayla Cartridge who is a great support for students who helps support student connection and wellbeing by running recess and lunch activities and support in transitioning students from preschool and to high school.

In Literacy our staff continued to use literacy assessments such as DIBELS and decodable programs to analyse student understanding. Staff used Tom Sherrington walkthrough strategies that are high impact teaching strategies to improve student learning. Such strategies such as 'chin up' boards, 'cold calling', 'say it again better', 'no opting out'. Instilling and stream lining InitialLit and Spelling Mastery programs and using functional grammar to further develop student's sentence structure. Staff engaged in training and development of the Department strategy and the new SA Curriculum. Our site saw efforts focus in the Effective Learner domain highlighting Metacognition and Self-regulation as continual works building on our wellbeing scope and sequence plan of BSEM, Open parachute, zones of regulation and restorative conversations. Our WEC data has shown that students social and emotional wellbeing are continually improving in the domains of connectedness to school, emotional engagement with teachers and School climate. We have seen rising result over the last three years.

Woodville Primary School has prioritised the areas of impact outlined in the Department for Education's Mathematics Strategy, with a focus on nurturing students as effective learners. Staff actively supported learners to pause and reflect on how best to achieve learning tasks, embedding metacognition and self-regulation into everyday practice. In the Upper Years, student researchers have played a key role in modelling lesson activities and metacognition strategies, helping their peers plan, monitor, and evaluate their thinking and learning process. This approach is designed to build the skills necessary for students to become confident and effective learners.

We continued the implementation of our whole-school Mathematics Agreement, centred around high impact teaching strategies and the poly-4 problem solving model to deepen mathematical understanding across all year levels. Targeted intervention program, Quicksmart, has continued to support identified students in developing automatic recall of basic number facts, improving calculation skills, and enhancing their use of mathematical language.

Governing Council Report

Our Governing Council works closely with the Principal for the best outcomes for student learning.

The Charles Sturt Council approached the Principal and Governing Council to consider letting go of the land at the end of the oval (close to Simpson St) to be considered for a future park for the community. The School and the Department agreed to a leasing agreement and asked in return for the widening of Tenterden St to be considered to alleviate the congestion of traffic during the mornings and afternoons due to school drop off and pick up. After the Council met to discuss development in the Western suburbs, this project was placed on hold as other project were made a priority.

The Governing Council run many successful fundraising activities throughout the year including Mother's Day and Father's Day stalls, Blue Light Disco, Sports Day BBQ, Hot Cross Bun sales, Pie Drive as well as the sale of Christmas ornaments. Fundraising efforts from recent years has been used to develop the new sandpit and water play area for the Early Years, due to be completed in March with works already underway.

Performance Summary

NAPLAN Proficiency

In 2023 the Australian Curriculum, Assessment and Reporting Authority (ACARA) - a Commonwealth Independent statutory authority - announced changes to NAPLAN performance reporting. The new approach replaces the previous numerical NAPLAN bands and the national minimum standard.

Attendance Comment

In South Australia, all children and young people must be in school from 6 years to 16 years old. They must attend a government or non-government school full time. From age 16 to 17 however, young people must attend school or an approved learning program (such as an apprenticeship, traineeship, accredited course or university). Schools and parents must encourage and support students to come to school every day. Parents and caregivers must make sure their child is enrolled in a school, and attends school all day and everyday it is open, unless a child is sick or has an approved exemption. Teachers and leaders actively follow up when a student misses school, including recording all absences and non-attendance. All schools in South Australia have local attendance procedures governed under the Education and Children's Services Regulations 2020.
